MEMORANDUM FOR : 25X1A9a

SUBJECT : Town Plans of the USSR

25X1X7

25X1X7

1. As you know, a number of town plans for Soviet cities have been prepared on USSR towns. Usually, for each town produces three separate maps: (1) a classified plan in the scale of 1:25,000, (2) an unclassified version in this scale, and (3) an unclassified plan at 1:35,000.

2. Apparently through a series of misunderstandings, a regular flow of these plans to the CIA Map Library has not been initiated. It is felt that some of the Library's customers would be able to make use of these maps. Accordingly, the following town plans are attached in the quantities indicated:
